🆔 PROFILE

I'm Alexis, passionate about software development. I thrive on turning ideas into elegant and user-friendly applications and enjoy the challenge that comes with coding. Enthusiast with the web and application development, when I'm not coding I like to keep up to date with the latest tech news.

I'm also a former physical therapist that has been working for several years in a cross-functional team, therefore I'm used to keep a proper communication with every professional member that shares the same environment with me in order to reach and obtain our goals together in the most efficient way.

I am always on the lookout for new challenges and opportunities to learn and grow, whether it's by exploring new programming languages or by tackling complex problems, so I will adapt to the company's necessities to fulfil them for a mutual benefit.

🧠 SKILLS
